## DELIVERY SERVICE AGREEMENT

To better serve our customers, please check the type of service you prefer.

In order to prevent any misunderstandings when changing the type of service you currently have, the service will not be changed until this completed form is signed and returned to a Van Dyke Gas office.

### PLEASE CHECK THE TYPE OF SERVICE DESIRED

- AUTOMATIC** Allows Van Dyke Gas to deliver as needed at any time

Automatic customers have their usage monitored by our dispatch team and utilize software to accurately predict the ideal time for a delivery. We will automatically come out and deliver without the customer needing to monitor their gauge. Automatic customers receive a **\$.10 per gallon discount** on market rate deliveries.

- WILL CALL** Customer will call for delivery as needed

Will Call customers monitor their tank percentage and contact Van Dyke Gas when a delivery is needed. Van Dyke Gas will then schedule a delivery. Please note that during peak season allow up to 5 days for delivery to be made. **It is important to call when the gauge reads 30% to schedule a fill up.** If a tank has run out of gas a safety inspection will be required. Additional fees apply to emergency deliveries.

For a complete list of terms and conditions please visit our website [www.vandykegas.com](http://www.vandykegas.com) or contact one of our service locations.
